

## Experts in time-lapse photography Leaders in client delivery

Sitevisuals is an experienced and capable service provider of time-lapse, aerial and commercial photography and video production. As a comprehensive, full-service provider, we simplify your project needs by integrating multiple services under one roof, all seamlessly coordinated by our dedicated team to save you time, reduce complexity, and cut costs.

Our mission is to capture your sites and projects with high-resolution digital imagery to showcase your business and operations at their best. We proudly support a diverse range of industries, including commercial and residential construction, land and estate development, civil works, mining, shop and office fit-outs, and beyond.

### TRUSTED BY MAJOR BRANDS INCLUDING

# Why Time-lapse?

---

- ✓ **Comprehensive Documentation:** Capture the entire lifecycle of a project.
- ✓ **Remote Accessibility:** Monitor from anywhere via secure browser access, including on mobile phones and tablets.
- ✓ **Improved Stakeholder Communication:** Offer stakeholders an overview of construction progress, help to identify bottlenecks and inform decisions.
- ✓ **Enhanced Project Management:** Access historical data for tracking progress, resolving disputes, and supporting future planning.
- ✓ **Energy Efficient and Flexible:** Self-contained, solar-powered monitoring stations with battery backup eliminate the need for on-site infrastructure, ideal for remote or dispersed projects.

# Why Sitevisuals?

- **Comprehensive Project Coverage** – We provide a full turnkey service, from project scoping to solution design, fabrication, implementation, commissioning and on-going daily monitoring and equipment management.
- **Experience and Longevity** – Sitevisuals is one of the longest standing time-lapse providers in Australia, having been in the market for almost 20 years. We know what to look for and how to get the best out of a timelapse camera and the challenges of any site.
- **Quality Services Professionally Delivered** – Our standards and deliverables are high with equipment to match. We seek to exceed expectations, every time. We provide comprehensive project documentation, prioritise safety and work side-by-side with our clients at every step.
- **Reliable and Dependable** – Above all, we guarantee delivery. We do what we say, when we say we will do it.
- **Brand Reputation** – We are preferred and sought after by some of Australia's top brands in construction, mining, land development, healthcare, education and retail.
- **Complementary Professional Services** – We operate as a full-service provider to cover all of our clients' media needs efficiently and effectively. In addition to time-lapse and remote monitoring, our services include commercial and drone/aerial photography, videography and video production.

# Our Reviews

**More than 60% of our clients are repeat customers**

*"Sitevisuals has done incredible work for us this year. Their effort, creativity, and dedication haven't gone unnoticed, and it's been a real pleasure collaborating with the team."*

**Damien Del Borrello**

*"Sitevisuals produced a high quality time-lapse video of a major project installation that delivered over 27,000 pallet locations in a 20,000sqm warehouse over a 16-week timeframe. The Sitevisuals team were a delight to deal with and their knowledge of complex building projects was invaluable. I found Brad and his team to be highly professional and always available. I highly recommend using Sitevisuals for your next project."*

**John Hartus**

*"It's been a pleasure working with Sitevisuals. The quality of the photos and videos has been outstanding, enabling us to provide real-time updates to our clients."*

**Simone Kenyon**

*"I used Sitevisuals for photography and videography, including drone footage, and to create a promotional-style video for a large-scale industrial project. I found them to be responsive and professional, and highly engaged in the project which gave us a great outcome."*

**Jamie Wilkinson**

# Complementary Services

## Video Services

---

### Time-lapse Movies

Our multimedia team create high-quality, time-lapse movies that showcase the entire construction process from start to finish. Our time-lapse movies are ideal for promotional purposes, providing a dynamic way to showcase your project's journey, while also serving as a lasting keepsake to celebrate its success.

### Progress Movies

Experience your project's progress as it unfolds. Our team delivers 4K-edited progress videos throughout the lifecycle of a project. These movies are an easy way to keep team members, investors and other stakeholders updated.

### Corporate Videos

Whether you need an engaging training video to educate your team, promotional footage to highlight your business, or a corporate showcase to impress stakeholders, we tailor our services to meet your specific needs.

## Photography Services

---

### Commercial Photography

Let a Sitevisuals' professional photographer showcase every impressive detail of your project in the best light.

### Aerial Photography

The perfect accompaniment to our time-lapse services to showcase your project from all angles.

# Our Equipment

## Our Cameras

- ✓ High resolution 24MP DSLR
- ✓ Interchangeable professional wide/telephoto lens
- ✓ IP66-rated waterproof enclosure
- ✓ 4G LTE wireless communications
- ✓ Self-powered solar panel
- ✓ Remote controlled High Frequency Capture flexibility

# Installation

Our time-lapse systems are designed, installed and maintained by our team of professional field technicians. We work closely with our clients on each new project to custom design a solution that takes into account the uniqueness of both site and project scope.

## Compact footprint for tight spaces

Our custom solutions give us freedom to install a time-lapse camera in challenging locations. Giving us the ability to capture what other installation options cannot.

## Relocation flexibility

We offer installation systems that can be easily transported in, around, and off site by our field technicians.

## Self-Install systems

We can supply and support you to install our equipment yourself, saving you labour and travel costs.

## MOUNTING OPTIONS

### ➤ Pole

Up to 8.5m modular pole and 12m concrete block elevations.

### ➤ Trailer

Easily change the location of your camera with our trailer mount option.

### ➤ Custom

Our custom solutions can attach to any surface, e.g., rooftops, walls, lamp posts.
